

1. Earth Day is April 22. Earth Day was started in 1970 in San Francisco, California, the city named for St. Francis. St. Francis is the patron saint of ecology, the science of caring for the earth. What does “Dr. Seuss’ The Lorax” teach us about care for the earth?
2. The Lorax tells the Onceler: “Unless someone like you cares a whole awful lot, nothing’s going to get better. It’s not.” What did the Onceler do to make the Lorax tell him this? What did the Onceler finally do to make things better?
3. Why is it important to take care of our planet? Who do you think is responsible to do this? Why?
4. Think of three ways you can do something to care for the earth in your own life and then talk about these ideas with your family and at school:
 - a. _____
 - b. _____
 - c. _____
5. Do you agree with Sister Rose’s review of “Dr. Seuss; The Lorax”? If your opinion is different, or if Sister Rose forgot something important, write your own review here:
